SPRING 1998 \$5.50

SUZANNE BANNER ALLEN has design credentials going back nearly two decades; she was in New York City with McMillen, Inc., and now has her own company in Atlanta. "I was never able to find the unusual tables I wanted to put into my interiors, so I ended up making them myself," she says. One such is the Mayfair red bamboo double tray table. Made in the South, like all of her furniture, it is constructed of sturdy maple and finished in distressed lacquer with edging details in gold leaf. Inspired by the Brighton Pavilion style of decoration, it is also available in black and gold. *2300 Peachtree Road, NW, Suite C201, Atlanta, GA 30309; (404) 355-8881.*
